Our Story

HR Pillar was founded on over a decade of experience supporting Recruitment businesses with HR, Internal Recruitment and Training.

With first-hand experience of running HR functions in and out of recruitment, and managing a £100m Contingency Labour programme; HR Pillar understands the pains recruitment businesses and clients face.

As a multiple small business owner, we understand the pain of growing a business and the dedicated resources needed in hiring, onboarding and training new talent.

The owner of HR Pillar managed multiple internal recruitment functions, including Hays PLC, Kelly Services UK & Europe, CBSButler and Daniel Owen.

With over 1,000 hires made in the recruitment industry and hires still in the industry a decade later; we are confident in supporting your business talent programme - to suit your specific needs.

Our Services in the Lifecycle
